Hello Governor,

I talked with APRN on Friday as they asked about the trial and how it affects our planning. I told Ellen that it doesn't. We are not talking to any lobbyist about our planning. Our plan is about foresight and ensuring our needs are met in five and ten years. She asked if our plan would bring our prisoners home from Az. and I told her that it did.

Thank you for the e mail, and I'll call over next week and see if you have a few minutes. Of course, I'm rattling around the valley so any time you'd like to talk...I'm game.

Joe

Hi Joe: it will be interesting to hear your reaction to info being revealed by FBI in the Anderson case... when we both get a second I'd love to hear it.

I'm intersted in these prison folks who are being named - if they may have influenced DOC decisions in prior administation(s) that you're left to contend with and clean up today.

Have a great Sunday. Hope the budget cut issues don't spill over to you - if you hear from angry constituents re: their pet projects please send them my way. None of our cuts "kill" any project - other sources of funds exist and a better process to prioritizing projects MUST be adopted. Thanks!

Subject: Outlook Calendar
Importance: High

Good Afternoon Governor –

I have switched over all of your appointments from the OnTime Calendar to the Outlook Calendar this afternoon. I will be using only the Outlook Calendar for all appointments from here forward. You should be able to view your calendar on your BlackBerry at this time. It will show under the "calendar" icon. The BlackBerry will not show appointments in color.

I have kept the color coding that I was informed that you preferred: Red for all your meetings, Green for holidays and any personal appointments; Black for FYI. There are many color options and these can be changed to your preference.

Those that have "read only rights" for your calendar as of Monday, 07.09.07: GOV, Mike Tibbles, Sunny Cayce, Kris Perry.

I have the only "scheduling rights". I am always available by email and phone – 321-2423.

Thank you for this opportunity to work for this Administration. Janice

Subject: RE: Budget

Good morning Governor - we are receiving responses from the departments to their review of the capital budget - not a lot of specific recommendations for vetoes but some general comments. My staff is following up with the agencies and asking additional questions so that we have sufficient information to base our recommendations to you on. I expect to have the Department of Law's review sometime next week.

I expect Legislators will be reluctant to put anything specific in writing - those with specific ideas are more likely to pick up the phone and call Mike, John, or me - As you can expect, I am getting more calls from people concerned about their projects being removed from the budget than from those asking for us to veto! I will talk with Mike and John about how best to engage legislators in the process.

Karen

John: i was asked yest by reporters what percentage (budget cuts) we're aiming for - didn't have a specific number but declared we would be vetoing. It occurred to me we need to enlist the help of legislators, esp those who came out of the session screaming that their colleagues spent too much money.
We'll give them the opportunity to help the state.

Would you figure out how to reach out to them in requesting their ideas on cuts - some line items are in districts where the local legislator did not even request the item, it appears. They need to give input on where we can afford to cut, delay funding, or phase in funding. We need to do this asap.

Perhaps a letter from the third floor giving them a head's up reminder that we must live within our means and a strong request to tell us how they can help.

I know it's probably never been done before, but so be it. But it's got to be done soon.

Also, I'm very anxious to hear from Cabinet members their suggestions for cuts, too. Mike - would you forward this to Commissioners as the reminder that we need their input asap.

Thanks!
